SOLID

Solid wood jambs combine the beauty and characteristics of wood as nature intended, **expect color and grain variations.**

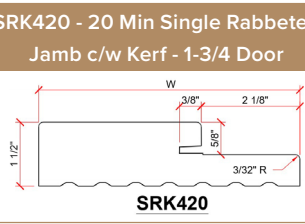

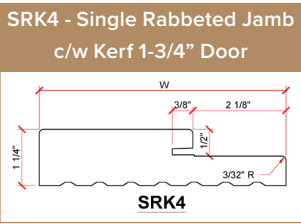

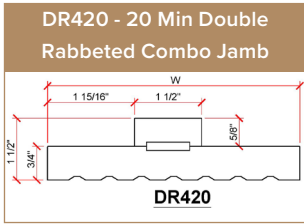

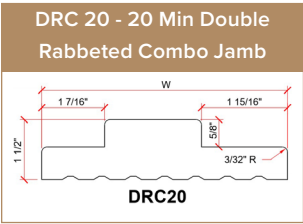

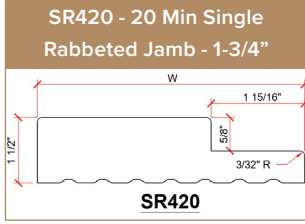

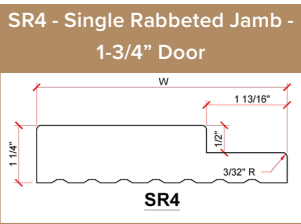

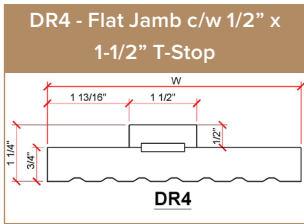

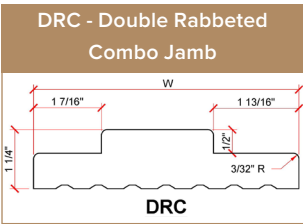

- Glue lines are kept to a minimum, wider pieces, typically over 5", have visible glue lines. Reasonable care is taken to grain and color match. Expect color and grain variations.
- Each set is available individually cardboard packaged or bulk packed.
- Full machining is available for most hinges and strike plates - templates are required.
- Durable factory finishes are available, including custom stain matching, clear coating and painting.

VEENERED

Veneered high-end door frames to meet the highest standards in the industry. Our focus on quality ensures beautiful, consistent A-Grade veneers in a variety of species with matching solid wood edges.

- Manufactured with a MDF, LVL or Engineered Wood core.
- Two different veneer thicknesses are available to suit a variety of projects.
- Each set is individually packaged to ensure a safe journey to the customer.
- Full machining is available for most hinges and strike plates - templates are required.
- Durable factory finishes are available, including custom stain matching, clear coating and painting.
